ACADEMIC PROJECTS

- **Money management web app-** Developed a responsive Money Management Web Application using HTML, CSS, and JavaScript to help users efficiently track their income, expenses, and savings. The app provides real-time expense summaries, visual insights through charts, and personalized budget tracking — all within a clean and user-friendly interface.
- **Amazon Clone** - Developed an Amazon Clone web application using HTML, CSS, and JavaScript, replicating the core design and functionality of the Amazon shopping platform. The project focuses on responsive UI design, interactive product display, and dynamic cart management to simulate a real-world e-commerce experience.

ACHIEVEMENTS / HOBBIES

- Qualified for **Smart India Hackathon (SIH) Pre-Qualifiers 2024,2025 (Organized by Government of India)** - selected among top teams at the internal college level.
